

**STEVE HALVORSEN // CORPORATE SAFETY/
RISK MANAGER**

Safety is our most important core value. We are committed to maintaining a safe work environment for all employees, subcontractors, clients, partners and the public. Steve brings nearly 40 years of experience in the construction industry, working on a broad range of projects including governmental, health-care, education and religious.

Steve uses his no-nonsense approach each day as he prepares the project-specific risk management plans, trains our workers, and conducts on-site safety inspections. Once identified, any safety concern is addressed immediately.

**SDSU Stanley J. Marshall Center -
Brookings, SD**

\$9.1 Million / October 2018
The first phase of the multiple phase project to add onto and renovate the Stanley J. Marshall Center will provide practice facilities for the men's basketball team, women's basketball team and the women's volleyball team. The addition will be positioned approximately thirty feet from the south wall of the existing building. The project is targeting LEED Silver.

**NSU Regional Science Education
Center - Aberdeen, SD**

\$19.5 Million / June 2019
The facility is envisioned as a two-story, approximately 54,000 square foot building that will house Biology, Chemistry and Physics laboratories, classrooms and office spaces. This building will provide a gateway to the campus, next to the newly renovated Johnson Fine Arts Center. The project is targeting LEED Silver.

**NSU Johnson Fine Arts Center -
Aberdeen, SD**

\$11.7 Million / August 2016
The facility included an addition and renovation that included new/upgraded performance venues and lobby/support areas, an art gallery, and classroom, practice, and studio space for the departments.

**Canton High School Performing Arts
Center - Canton, SD**

\$11.7 Million / October 2018
The addition will include: a new 1,000 seat performing arts theatre, stage with fly gallery, lobby, restrooms, scene shop, storage and dressing rooms. The project will also include replacing the existing air conditioning roof top units with a central chiller. The new building will be approximately 42,000 sq. ft. Site work includes a new parking lot, storm sewer adjustments and relocating an existing water main.

City Center - Sioux Falls, SD

\$18.17 Million / June 2018
The project includes the construction of a three-story building - two finished stories, a third-story shell, footings and foundations for a future fourth floor, underground parking and storage.

**Royal River Casino Phase 2 -
Flandreau, SD**

\$10.5 Million / August 2018
Phase two of the renovation of the casino. Work includes renovation to the guest services area and an expanded gaming floor and entry.
