

## USD WELLNESS CENTER VERMILLION, SD

---

The new two-story, 57,000 sq. ft. wellness center was conceived as part of a campus-wide effort to upgrade student services. Designed as an in-fill project on the USD campus, the building features work-out equipment and a walking/jogging track. Unique to the building are its angular forms and external use of materials. All this in a LEED Silver building on the Vermillion campus.

### Sustainable Highlights:

- High Efficiency Mechanical System
- Light Harvesting System
- Native Plantings

Delivery Method:	Construction Manager at Risk
Size:	57,000 Sq. Ft.
GMP:	\$12.28 Million
