Sanford Health Van Demark Building Update

Project Expeditor Brenda Laue gives an update for the Sanford Health Van Demark project.

At the Sanford Health Van Demark project, what a difference a year makes. In 2021 the HCC crew was working on the structural steel. The tower crane is scheduled to be torn down and crews are working on interior finishes (painting, ceiling grid, ceramic tile and casework) as they push to the Spring completion date.

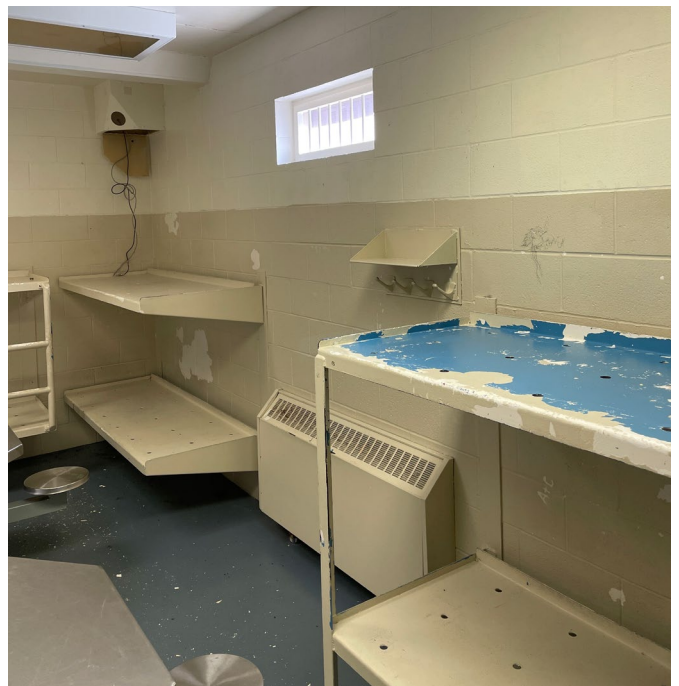

Brookings County Detention Center Update

Field Engineer Keaton Bohnenkamp provides an update for the Brookings County project.

At the beginning of January, the owner and the inmates moved into the new expansion. Now that the owner has completely vacated their existing space, we are able to start tracing electrical and mechanical to begin the demo portion of Phase 2.

For Phase 2 we will be gutting most of their existing space and turning it into office spaces, public bathrooms, medical rooms and classrooms/library. We are also adding a penthouse for the new mechanical room that will be feeding both Phase 1 and 2. The Henry Carlson Construction steel crew is currently erecting the steel for the penthouse. This should only take a few days.

Christmas Party

HCC and ASCO

HCC Guys

HCC/ASCO Christmas Party

Henry Carlson Co. and Asphalt Surfacing Company celebrated Christmas early December

HCC and ASCO celebrated Christmas December 3 during our annual Christmas party. This year we held it at Great Shots. Henry Carlson Construction built the facility in 2019.

We held a prize drawing for twenty \$50 Wal-Mart gift cards. The winners were:

Ron Disbrow, Anne Rice and Jon Kraft

Jeff Husman, Whitney Gunhus, Kristen and Jared Husman

Heather Houg and Greg Mohr

Vance Severyn

- Jean Luc Monreau
- Scott Reinke
- Grace Bundesen
- Jeff Husman
- Kyle Hubers
- Joe Turpeninen
- Reuben Wyatt
- James McMahon
- Josh Coyle
- Steve Laue
- John Wrage
- Travis Bott
- John Arndt
- Jim Richarz
- Monty Christensen
- Trevor Overweg
- Rusty Schmidt
- Lucas Jensen
- Mercedes Peterson
- Jimmy Havelaar

Jarod Goepferich

New Employee

Henry Carlson Construction welcomes Jarod Goepferich.

Jarod Goepferich

Henry Carlson Construction has hired a new Field Engineer, Jarod Goepferich.

I grew up on a small farm outside of Cottonwood, MN. Growing up my family raised finishing hogs, chickens and goats. My parents still live on the acreage and still work full-time, but no longer raise livestock. I have an older sister who works as a FOCUS missionary at the University of South Hampton campus in England with her husband and a younger sister who is pursuing her nursing degree at ATCC. I also have an older brother who is married and works as a nurse at Avera here in Sioux Falls.

Outside of work I enjoy spending time outdoors hunting, skiing, biking and spending time on the water. I am a huge sports fan and love playing and watching football and basketball. I was a student manager for the SDSU Women's Basketball team and am on a city league basketball team in Sioux Falls. I also like completing puzzles and designing 3D printed objects.

I recently graduated from South Dakota State with my degree in Mechanical Engineering. During my time at SDSU, I completed two summer long internships with Kiewit, which really encouraged me to transition into the construction industry. I spent this past summer working on a project at a refinery in Southern California where I was able to experience what life is like as a Field Engineer. I look forward to getting to know and work with everyone at Henry Carlson.

Ronald McDonald House Fundraiser

Henry Carlson Construction and Asphalt Surfacing Company raised \$1,115 through our weekly office lunches and the football picks pool! With this money, we helped stock the Ronald McDonald House Charities of SD "Magic Room" which is full of toys for kids to pick from when they arrive and stocked their on-site pantry/freezer. We also provided a meal for families staying on December 16th. Thank you to all that contributed, shopped and cooked!

Employee Spotlight

Jared Husman

Q Family background, where did you grow up, etc?

A I was born and raised in Sioux Falls with five siblings, three brothers and two sisters. Grew up in the construction industry as my father was a commercial contractor (Husman Construction Company). I have been married to Kristen Husman for about eight years now with a five year old son and two year old daughter.

Q Job title and how long have you been at HCC?

A Carpenter foreman/superintendent. I have been with the company going on five years now.

Q How did you get your start at HCC?

A When I was going through school at Southeast Tech in 2011, I applied for my internship with the company but was rejected for whatever reason at the time. So I went and worked for another company in Sioux Falls for about six years. In 2017 my older brother Jeffery, who was and is still working for Henry, convinced me to apply again. He must have put in a good enough word for me because I was hired on at that time. Thanks Bro.

Q What aspect of your job do you enjoy the most?

A I enjoy working with the different types of people it takes for a project to come together. Both the good and even the more difficult people and personalities you interact with on a daily basis to complete the common goal of the project keeps the job interesting.

Q Where is the best place you've traveled to and why?

A Best places I traveled was probably during my service time in the Navy Seabees. The island of Crete, Greece from 03-05 is probably the most fun place. A close second would probably be Fallujah, Iraq in 2007, but that was a different kind of fun...

Q If you could live in any time period, which one would you choose and why?

A If I could live in any time period it would be right now. In my opinion, times have never been better with the opportunities and simple things in life that we don't necessarily need but still want and can have. Don't take things for granted, I mean you can have a cheeseburger delivered to your door today if one is too lazy to cook it themselves. That's a pretty good time if you ask me.

Q What do you always want to try and never did?

A I always wanted to shoot wild pigs from a helicopter. That looks like a lot of fun, hopefully I can do that someday.

Q What are you currently watching on Netflix?

A On Netflix I enjoy history or crime shows. Just finished Narcos and now watching How To Become a Tyrant. Pretty interesting stuff.

Q What is the first thing you would buy if you won the lottery?

A If I won the lottery, I would probably buy a cabin in the Hills with a garage full of motorcycles. And a tank...because who wouldn't want a tank?

Q If you were on death row, what would your last meal be?

A Last meal on death row is a tough one. Probably just some fried chicken, an ice cold Bud Light and some Skittles.

Wesley Novak

New Baby

Tom (HCC) and Mary Novak welcomed Wesley Thomas Novak! He was 8 lbs 6 oz. Congratulations!

ANNIVERSARIES AND BIRTHDAYS

February Anniversaries

- Randall Erickson 2 Years
