## Sanford Imagenetics Luncheon

Sanford hosted an appreciation luncheon in the Sanford Imagenetics atrium on March 8. Several Sanford Health personnel attended the luncheon and Sanford vice president Jan Haugen-Rogers thanked the crews for the work that has been done on the project.

# Major Projects

Good Earth State Park Visitors Center -  
Harrisburg, SD  
April 2017

3M Attest -  
Brookings, SD  
August 2017

Flandreau Santee Sioux Tribal Clinic -  
Flandreau, SD  
September 2017

Sanford Ava's House -  
Sioux Falls, SD  
September 2017

Royal River Casino Administration Addition -  
Flandreau, SD  
September 2017

Sanford Imagenetics -  
Sioux Falls, SD  
September 2017

Washington Square -

Canton, SD  
August 2018

Sanford Imagenetics - Sioux Falls, SD

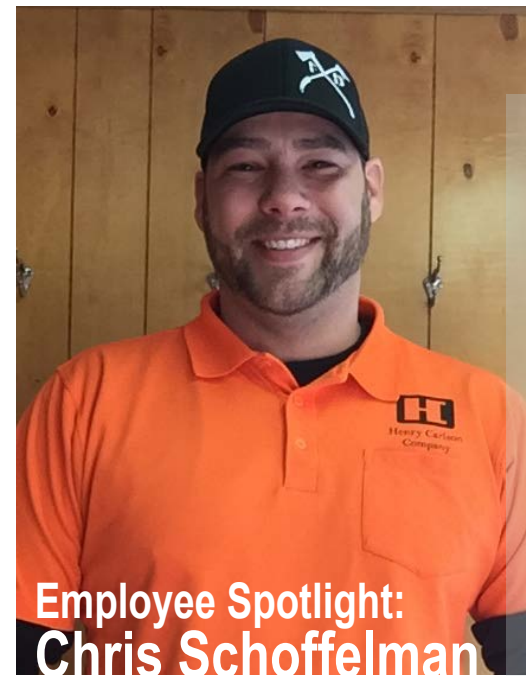

Flandreau Royal River Casino - Flandreau, SD

Washington Square/Nash-Auburn Building - Sioux Falls, SD

Nash-Auburn Building - Sioux Falls, SD

## Employee Spotlight: Chris Schoffelman

I asked Henry Carlson Construction employee Chris Schoffelman a few questions about himself. Here are his answers.

Cant Resist: Gummy Bears

Best Place Traveled: Key West, FL

Favorite Local Restaurant: Tea Steakhouse

1. **Tell me about your family.**  
I grew up on our family farm west of Tea SD, where my brother and I worked alongside our father and grandfather. I now live in a small house in Lennox, SD. I graduated from Lennox High School and spent a few of my summers in Lennox with my grandparents. I'm also a volunteer firefighter in Lennox and hold a seat on our fire department's board, same as my grandfather George before me. I live there with my beautiful fiancé, Billie, and our beautiful two-year-old baby girl, Lola. We also have two dogs; Maverick, our lab and Pickles, our dachshund.
2. **What is your job title and how long have you been at HCC?**  
I'm currently our Steel and Precast Foreman at Henry Carlson. This August will be mark my 18th year with the company. I'm also the fourth generation to work for HCC. My mother's grandfather, Edward Geiken, worked for Henry Sr., my mother's father, George Geiken, retired from Henry Carlson and of course my father, Al Schoffelman, has been here for more than 40 years.
3. **What is the one thing you cannot resist?**  
"Fat guy confession" ...gummy bears...
4. **Where is your favorite place to be?**  
At home, movie night with "the future wife" and my little girl.
5. **What is your favorite thing to do outside of work?**  
First and foremost, doing everything I can for the people of our community and surrounding area as a firefighter. There's no better reward in this world than to save a life, and to help and console someone in their absolute worst time of need. And a close second, deer and turkey hunting.
6. **Where is the best place you've traveled to and why?**  
Key West, Florida. Just an absolutely beautiful place. And I will definitely return to spend more time there someday.
7. **What's the weirdest job you've ever had?**  
You wouldn't believe the things you see as a volunteer fireman.
8. **If you could do another job for just one day, what would it be?**  
I would love to be a hunting guide.
9. **TV show you never miss?**  
Probably Top Gear or River Monsters
10. **Favorite Sioux Falls restaurant and what do you always order?**  
Sorry but it's actually it's in Tea, SD - The Tea Steakhouse and their large t-bone. It just can't be beat.

# HISTORIC ENDEAVOR

The new \$35 million Froiland Science Complex, the largest and most sophisticated building project in Augustana's 156-year history, was dedicated in the fall of 2016.

**THE FROILAND SCIENCE COMPLEX BY THE NUMBERS**

- 80,000 feet of conduit (more than 15 miles)
- 370,000 feet of building wire (more than 70 miles)
- 220,000 feet of data wire
- 12,000 wire nuts
- 2,500 receptacles
- Roughly 354 tons of steel and 65 tons of rebar
- 78,435 feet of pipe (that's 14.8 miles)
- More than 40,000 joints
- 18 different piping systems
- 2,150 cubic yards of concrete

**Historic Endeavor:** After two years of construction, the Froiland Science Complex was officially dedicated on Friday, Sept. 23. Nearly 500 alumni, friends and members of the campus community, including retired faculty members, turned out for the dedication event held nearly 50 years to the day of the dedication of Augustana's former science facility, the Gilbert Science Center. At 125,000 square feet, the facility represents the largest and most complex building endeavor in Augustana's 156-year history. Construction on phase one, a 41,000-square-foot addition at the corner of 33rd Street and Summit Avenue, began in August 2014. Phase one opened in January 2016. Phase two of the project featured a complete renovation of the existing Gilbert Science Center, originally dedicated in the fall of 1966. Designed by SmithGroupJJR and TSP Inc., the \$35 million project features a new high-fidelity nursing simulation center, multiple technology-rich "classrooms" — rooms mixing traditional classroom elements and laboratory components, state-of-the-art research areas for faculty researchers and their student collaborators and glass-enclosed laboratories. The facility is home to the departments of biology, chemistry, computer science, exercise and sport science, genetic counseling, mathematics, nursing and physics. Designed with the environment in mind, the new facility is targeting a LEED Silver designation. The complex was made possible thanks to the generosity of more than 1,000 donors, 469 of whom gave \$1,000 or more in support of the project. In gratitude, their names are listed on the donor wall located inside the facility's north entrance. President Rob Oliver has called the project a result of dreams — dreams of past professors and those teaching on campus today. "This facility honors the legacy of Dr. Sven Froiland, a champion for biological research on campus," Oliver said. "At the same time, it also recognizes our extraordinary emeriti faculty members including Dr. V.A. Nelson (physics) and Dr. Roy Kintner (chemistry) who helped develop Augustana's natural science division, as well as the amazing professors on campus today who are teaching, guiding and mentoring our students in preparation for lives of exploration, discovery and service." In addition to President Oliver, the dedication ceremony's speakers included Becky Blue '81, chair of the Augustana Board of Trustees; Dr. Tom Froiland '63, the son of Dr. Sven Froiland, for whom the facility is named; Dr. Paul Egland, associate professor of biology and natural science division chair; and the Rev. Dr. Paul Robic, campus pastor. Students Allison Warner '17 and Ellen Voigt '17 read scripture and Dr. Martha Gregg (mathematics) recited a poem. Music was provided by Gabriel Carlisle '15, Luke Lyness '12, Skyly Fivola '18, Dr. Paul Egland (biology) and Dr. Craig Spencer (biology). Learn more about the Froiland Science Complex and see photos and videos of the facility and the dedication at [augie.edu/science](http://augie.edu/science).

## Historic Endeavor: Augustana Froiland Science Complex

Augustana's Froiland Science Center was featured in Augustana's Winter 2017 issue. To read the article, please visit: [https://issuu.com/augustana-collegesd/docs/the\\_augustana\\_winter.2017.final.pri](https://issuu.com/augustana-collegesd/docs/the_augustana_winter.2017.final.pri).

## Baby News

Josh Heutzenroeder (HCC) and his wife Shjade welcomed Elore Lily. She was born February 11, 2017. Elore was 8 lb. 0 oz. and 19.5 inches long.

## Meredith Larson Retiring

Meredith "Pete" Larson is retiring from Henry Carlson at the end of March. Meredith has worked as the vice president of preconstruction services for Henry Carlson for 10 years. He will continue to work part-time through the summer, working as the owner representative for the KEVN/KOTA TV station remodel in Rapid City, SD.

Meredith and his wife, Sharon, plan on retiring in Palm Springs, CA where he will play golf, shop at Traders Joe's and visit many local coffee shops.
