## LG Everist 9 Mile Park Update

The HCC steel crew is working on the second module of the concrete equipment side of the batch plant, specifically the flop gate module. The top elevation of this module is 24 feet, and when the concrete equipment is completed, the top of the equipment column will be 99 feet tall. It's interesting to note that this height only represents a quarter of the total height of the concrete bin column when it is completed.

The west side conveyor base module (rectangle steel farthest west from them) is the base plate of the aggregate bin's column. The aggregate bins column height will be 80' when completed.

## SFWRF Update

At the moment we are constructing the new headworks building, aeration basins 7-9, final clarifiers, blower building, switchgear building, chlorine contact basin and various utility line and yard boxes for our facility. The McCarthy concrete and civil crews are making good progress on the headworks building and aeration basin expansion - slabs and walls have already been poured. In addition, existing basin 6 is also getting much needed improvements.

The McCarthy concrete and yard pipe crews are working hard to continue the installation of piping and foundations for the four new final clarifiers, various yard boxes and the chlorine contact basin concrete activities. With the blower building expansion complete and many utility coordination items done, our team can now proceed with underground plumbing, civil excavation and helical piles, once weather permits.

This winter we took on a tough project at our facility - tackling a complex biosolids dewatering building to allow for further improvements. The dedication and positive attitude of our craft workers brought the project through even the harshest of conditions, and now we are looking ahead to a productive Spring!

# NOW HIRING !

Henry Carlson Construction and ASCO have many open positions. To see the full list, please visit: [www.henrycarlson.com/careers](http://www.henrycarlson.com/careers).

- ☑ ASCO LABORER
- ☑ CDL DRIVER
- ☑ CLASS A CDL DRIVER
- ☑ CLASS B CDL DRIVER
- ☑ EQUIPMENT OPERATOR
- ☑ CARPENTER
- ☑ CRANE OPERATOR
- ☑ FIELD ENGINEER
- ☑ PROJECT MANAGER
- ☑ SUPERINTENDENT

Kirk Kranz

Andie Kommes

Cam Larson-Hood

# New Employees

Field Engineer Kirk Kranz and Shop Coordinator Andie Kommes joined Henry Carlson Construction in January. Superintendent Cam Larson-Hood joined ASCO in February. Welcome to the team!

Welcome to the team, Kirk Kranz! Kirk has joined Henry Carlson Construction as the field engineer for the 3M Manufacturing Expansion project in Valley, NE. He grew up with a Brookings, SD address, but attended school in Volga, SD. When he's not working, he enjoys working on DIY projects around the house or golfing. Kirk said he looks forward to meeting everyone at Henry Carlson Construction.

We're excited to introduce Shop Coordinator, Andie Kommes! She's a native of Hutchinson, MN and has been a resident of Sioux Falls for almost two decades. When she isn't hard at work in the Henry Carlson Construction/ASCO shop, Andie spends time with her fiance, kids and dogs. Nature lovers at heart, they enjoy camping, fishing, hiking and swimming when the weather permits!

We're also excited to introduce ASCO Superintendent, Cam Larson-Hood! Cam grew up in the small town of Martin, SD. She lived there until she finished college, and then moved to the Sioux Falls area and started working for Mryl and Roy's Paving for two summers.

Cam was hired by the Sioux Falls Street Department in 1989 as an equipment operator. In 1996, she moved into a supervisor position and took over the paving operation for the City. Cam oversaw the paving crew, the prep crew and the manhole crew. She also oversaw the snow removal operation on the west side

of Sioux Falls. She recently retired after 34 years of service. After three months at home, she decided it was time for a new career.

Cam's dad was a state meat inspector until he retired. Her mom was a judge and retired after 34 years. She has a younger brother and a younger sister. Cam has two children. Her oldest daughter, Shelby, is in the Sioux Falls area and her son, Sawyer, is in the Platte, SD area. Both grew up in the rodeo arena and participated in 4-H. Shelby is now managing a horse barn by Baltic and Sawyer is working on a cattle ranch by Platte. Her son is still competing in rodeo on the pro level. He is a steer wrestler and has placed nationally in high school, college semi-pro and now pro. Two years ago, he made it to Vegas, and the family spent a week there (what a blast!).

Cam met her now husband five years ago in his hometown of Gothenberg, NE, where he owned his own home building and remodeling business. This past June they were married in Cam's mom and dad's beautiful backyard. Her husband, Roger, works at Sioux Falls Truck and Trailer. They love to go camping, fishing, hunting and visiting Nebraska to see her family.

Cam said, "I am very excited about my new position with ASCO. I know I will learn a lot and believe that my experience will be an asset to the team."

# Anniversaries & Birthdays

## APRIL ANNIVERSARIES

◦ Landon Rupp	1 Year
◦ Bennett Tufty	1 Year
