Celebrating the Success of ASCO's CDL Training Program

Congratulations to Jaycob Baughman, Kolin Schroeder, Zach Freese and Josh Gist for successfully completing their CDL Training!

Over the past year, ASCO has achieved significant milestones in its CDL training program, with over 15 employees successfully becoming in-house CDL Class A and Class B trainers. As a Federal DOT CDL testing site for all private CDL drivers in South Dakota, ASCO offers a comprehensive program covering everything from theory to behind-the-wheel training.

To date, six employees have completed the program, with the goal of having ten more licensed CDL drivers by the start of the paving season. The training process begins in a classroom setting, where employees read and review the South Dakota CDL manual. Collaborative practice pretests help reinforce learning and build a supportive group dynamic.

Upon completion of classroom training, employees head to the DMV for the CDL tests, including general knowledge, air brake, combination vehicle and tanker tests. The hands-on training kicks off at the ASCO shop, where trainers team up with employees

and guide them through the complete walk-around of the combination vehicle and in-cab procedures. The rigorous training includes air brake tests, driving and backing skills on both private and public roads, totaling a minimum of 40 hours for each. Now that all training has been completed, each employee can schedule his or her third party test, which usually takes place at the W.H. Fairgrounds. After the third party test has been passed, they can obtain their license.

A heartfelt congratulations goes out to our new CDL drivers - Jaycob Baughman, Josh Gist, Kolin Schroeder, Zach Freese, Damon Whaley and Jacob Lehrkamp. Special thanks to trainers Tevin Boehrns and Trent Johnson for their dedicated efforts in ensuring each employee is test-ready.

As the paving season approaches, we look forward to the continued success of ASCO's CDL training program and the positive impact of its skilled and licensed drivers. Congratulations to all involved in this achievement!

EMPLOYEE MEETING

Friday, April 26, 2024

We are livening up our spring all-employee meeting this year. In addition to a company update, we will have a special guest speaker and activity. Also, we are very excited to have the Kyburz-Carlson Construction join us for this event!

The meeting will be in the Ramkota Exhibit Hall: 3200 W. Maple St, Sioux Falls, SD 57107.

Lunch will be served from 12:15 PM - 1:00 PM, please join us any time after 12:15 PM but no later than 1:00 PM.

NOW HIRING !

Henry Carlson Construction and Kyburz-Carlson Construction have many open positions. To see the full list, please visit: www.henrycarlson.com/careers.

- ☑ CONSTRUCTION LABORER (SIOUX FALLS AND BROOKINGS)
- ☑ CRANE OPERATOR
- ☑ IRON WORKER
- ☑ PROJECT MANAGER
- ☑ SUPERINTENDENT

Nick Olson

NEW EMPLOYEES

Please welcome our newest employees!

Nick Olson

Nick Olson joined Henry Carlson Construction as a Field Engineer.

I grew up in White, South Dakota. I graduated from South Dakota State in 2022 with a degree in Construction Management. I have been in the construction industry for nine years. I began my journey working on numerous residential projects during high school and college. Over time, I have worked my way through the construction industry transitioning into commercial construction spending time in the field and in the office.

In my free time, I enjoy hunting, fishing, playing a round of golf and spending quality time with my friends and family.

I am excited to start working for Henry Carlson. I have been in the construction field since I learned how to drive. I am drawn to seeing the changes in the project at the end of the day and being able to bear the fruits of your labor. Being able to finish a project brings more opportunities and economic growth to the community.

Employee Spotlight

Tammy Spellman

Q Family background, etc. hometown, where have you lived, etc.? Anything you want to include here.

A I was born in Kansas City, Kansas. We moved to Pierpont, South Dakota my sophomore year in high school. It was culture shock for a while, but South Dakota grew on me (except the winters). When I graduated from high school, I moved to Aberdeen and have been here ever since. My husband and I have a combined family of four kids, two boys and two girls. Next year we will celebrate our 20 year anniversary. I'm also a very proud grandma!

Q Job title and how long have you been at KCC? How did you get your start?

A My job title is Administrative Specialist. I've been at Kyburz-Carlson for almost 12 years now. I started out as a part-time receptionist but always wanted to learn more and kept asking to take on more job duties. Eventually, I was hired on full-time and was given more job duties. Before Kyburz-Carlson, I worked for the State of South Dakota in the Unemployment Division for 10 years. Prior to the State, I worked at Hair by Stewarts in our Aberdeen Mall for about 10 years.

Q What have you always wanted to try and never have?

A Snorkeling. I'm not much of a water person but would like to try it once.

Q Most famous person you have met?

A Unfortunately, I have not met anyone famous that I'm aware of, but a few years ago when my husband and I went to Vegas for the first time, we saw some rather unique, interesting people.

Q What would a "perfect" day look like for you?

A A perfect day for me would be a beautiful summer day (with no bugs) playing outside with my grandson. Going to the park or zoo. Just having lots of laughs and fun.

Q Where is the best place you've traveled to and why?

A I have not really traveled much, so this is a hard one to answer. The most interesting place I've traveled to was Vegas. I loved Caesar's Palace. The sculptures and the artwork was just amazing. I was so mesmerized by the ceiling being painted to look like the sky, that I actually ran into people a few times.

Q If you could do another job for just one day, what would it be?

A I would love to be a tour guide in an exotic area. It would be fun to take people to all the best places and be able to enjoy it myself as well.

Q What are you currently binge watching?

A Funny, this was the easiest question for me to answer. I am currently watching Chicago PD on Amazon Prime.

Q What is the first thing you would buy if you won the lottery?

A My husband and I joke about winning the lottery, but I've never really thought of what I would actually buy. Probably my dream house and then a purple Dodge Challenger Hellcat.

Q What is your favorite place to eat/shop/visit in Aberdeen?

A Aberdeen really doesn't have much to offer for eating or shopping. I would say a good place to eat at would be 322 or Maverick's. Shopping would be Kohl's or Marshall's. A fun place to visit in Aberdeen is Wylie Park.

NAWIC's Women in Construction Week

"Even after all of these years, when on the construction site, I'm reminded that we do some really amazing things. Technology, tools and equipment can improve, but it is still the skill of men and women that gets the project completed. And through our efforts, we can change the landscape of a community for today and for the years to come."

Brenda Laue
HCC Project Expeditor
33 Years of Service

The first week of March celebrates NAWIC's Women in Construction Week. Join us as we recognize our amazing women that help shape the construction industry! This year's theme, 'Keys to the Future', celebrates the strength and knowledge of women and the vital role they play in shaping the future of the construction industry.

"NAWIC is a great way to meet and support other women in the construction industry. Since women are the minority in the industry, it is a challenge to find a networking group geared towards construction to belong to, but NAWIC is the perfect group. The organization empowers women to better themselves, personally and professionally."

Amanda Painter
HCC Controller
4 Years of Service

"I enjoy the construction industry due to the diverse range of projects and opportunities available. Every project has its own challenges and is rewarding in its own way. There is a lot of potential for career growth. You're constantly learning from the different projects and the constant changes/improvements in the industry and how things are built."

Dessie Taylor
HCC Project Manager
1 Year of Service

NAWIC's Women in Construction Week

ASCO's Rusty Schmidt and Ferdy Hot volunteered at NAWIC/AGC's Pizza, Pop & Power Tools event at the CTE Academy. The event provides 8th grade girls a day of learning. The construction stations included power tools, welding, tile setting, concrete and heavy equipment.
