Jeff Jungen

In Remembrance

Jeffrey John Jungen, age 63 of Harrisburg, SD passed away on Tuesday, July 5, 2022. Visitation will be on Sunday, July 10, 2022 at George Boom Funeral Home & On-Site Crematory, Sioux Falls from 3:00-5:00 PM. His Memorial Service will be 11:00 AM Monday, July 11, 2022 at Grace Lutheran Church in Sioux Falls, SD.

Jeff Jungen was a real one. A top tier husband, father, grandfather, brother, son, and friend. He was born on Friday the 13th in February of 1959 to Nick and Vivian Jungen in Sioux Falls, SD, where he spent his formative years developing into what would become one of the dopest humans to ever set foot on the planet.

Jeff graduated from Lincoln High School in 1977, but not before he wooed a young Catholic girl who he would marry, build a family with, and love every day for the rest of his life. Around the same time, he began his career with Henry Carlson Construction where his job as superintendent allowed him to lead numerous projects you can find scattered throughout his hometown.

Jeff combined his talents with a strong work ethic and a love for creating things. This naturally extended outside of work into the creation and construction of his own home that he poured so much time and detail into, taking what was a plot of dirt and turning it into a beautiful home nestled in a gorgeous, flowing landscape of which every rock, tree, plant, and flower was precisely placed by his hands.

He loved and was loved by many. You knew you were a good one when he affectionately referred to you as “homie”, and even some of you “knot-heads”.

Grateful for having shared his life are his wife, Tracy Jungen of Harrisburg, SD; one son, Cole Jungen of Portland, Oregon; one daughter, Tara Erickson of Sioux Falls, SD; two grandchildren, Jozlyn and Bennett; mother, Vivian Jungen; two sisters, Jeanne (Warren) Wallin and Tracey (Todd) Heiden as well as many other nieces, nephews, co-workers, friends and extended family. Jeff was preceded in death by his father, Nick Jungen; two brothers Les and Mike Jungen; and sister, Charlotte Lottman.

We are all forever changed having Jeff in our lives, and now forever changed missing him every day going forward.

In lieu of flowers, Jeff requests that you live your life with kindness in your heart. He said it best, “It’s easy to be nice.”

Employee Spotlight

Reece Miller

Q Family background, hometown, where have you lived, worked, etc.?

A I grew up in Hurley, SD. Graduated from Viborg-Hurley in 2013. Joined the Army Reserves while still in high school, went to Basic Training and Advanced Individual Training the fall of 2013. Started college up in Brookings at SDSU the spring of 2015. Started working for HCC May of 2016. Married my wife, Bailey, October 2020. We just bought an acreage east of Viborg in April of this year. We also just had our first child, Gunner, June of this year.

Q Job title, how long have you been here and how did you get your start at HCC?

A Field Engineer. I started working for Henry Carlson May of 2016 shortly after I changed my major to construction management. I got my start with Henry Carlson when a good family friend, Jeremy Kessler (Henry Carlson Superintendent) heard I switched to Construction Management and thought I would be a good fit at Henry Carlson and asked me if I wanted to try an internship here.

Q What aspect of your job do you enjoy the most?

A I really like working with all the different players that go into a successful construction project. From the design team to the subcontractors. You meet a lot of different personalities and can learn something from each of them!

Q What would we most likely find you doing on the weekend?

A In the summer I can be found at Swan Lake hanging out with family and friends on the water. In the winter, either watching football with family and friends or hunting/ice fishing.

Q If you won the lottery, what is the first thing you would do or buy?

A I would build a new house on the acreage my wife and I just bought and take my whole family on a vacation. Maybe go on a hunting trip in Alaska! Also, I would pay my family's mortgages off.

Q What is the number one thing on your bucket list?

A This is a tough one! I would say a hunting trip to Alaska or an ice fishing trip in Canada.

Q If your house was burning down, what is the one non-living thing you would save?

A I would have to say a gold necklace of my grandpa's that was handed down to me after his passing.

Q Where is your favorite place to take a vacation?

A Black Hills/Deadwood. Most of the time when going there, it is with my whole family and I have friends that live in that area that I get a chance to see.

Q Which show or podcast are you currently binge watching/listening to?

A My wife and I like most any action show. Currently watching 911 and 911 Lonestar but they are in-between seasons now. Also watching Sons of Anarchy when Bailey works night shifts.

Q Where's your favorite place to eat in the Sioux Falls area and what do you always order?

A Probably Texas Roadhouse. Prime rib with a cup of chili and a side salad.

For the Sanford Health Van Demark Expansion, all of the remodel work on the 2000 Level was done in phases. The project will be substantially complete the first part of August. Scott Mohr and Travis Bott will then move across campus to run the Ortho Expansion + Medical Suites project.

Sanford Health Ortho Expansion + Medical Suites

Groundbreaking for the Sanford Health Ortho Expansion + Medical Suites was held on June 7th. A recent design change to the building has shifted focus to more of the auxiliary work on the project. Work on the site/utilities and building's main foundations is targeted to begin later this month.

This multi-story building will include support areas as needed for the function of the building, operating rooms, prep and recovery rooms and then 56 medical suites (hotel type rooms for patient and family stays). Completion is scheduled for late 2025.

My Counselor Helped Me

A few photos from our annual family picnic at Thunder Road on June 23rd. It was great seeing everyone and their families and guests!

ASCO/HCC Family Picnic

Trent De Weerd

New Office Employee

Project Manager Trent De Weerd joined Henry Carlson Construction at the end of May. He is working on the Sanford MOB + Parking project. Welcome to the team!

I grew up on a small family farm in Sioux Center, IA, receiving my Bachelor of Arts degree in Business from Dordt University in 2001. Soon after graduating, I worked for a traveling industrial electrical contractor as an on-site project manager working and living in many states including Nebraska, Texas, Maryland, Minnesota and Georgia. In this position, I was assigned to a wide range of projects including ethanol, biodiesel, soybean processing plants and a couple of large commercial food processing plants. Since moving to Sioux Falls, I have been a part of several commercial projects in the area.

I moved to Sioux Falls in 2010 in order to be closer to friends and family and to have a place to call home. I met my beautiful bride, Ann, in 2012. We have two children Lincoln (8) and Lauryn (5), as well as 2 dogs, a yellow Lab named Dixie and a Cavalier King Charles named Shelby. Outside of work, my family and I enjoy spending time outdoors camping, fishing, boating, swimming, hunting and horseback riding every chance we can get. Both of our families also have smaller farms in Iowa so we try to spend as many weekends as we can helping them out and having fun.

I look forward to meeting and working with the Henry Carlson team and to be part of the Sanford MOB project team.
