**SDSU Stanley J. Marshall:** Currently, the crews are painting the stripes in the west court and the east court will be next. MEP is on-going in the pent-house. The installation of the gym floor will be start on Monday and it will take 11 weeks to complete both courts. No one is allowed in each court while this process is taking place, so the trades are finishing up their work above the courts. Combined Building will finish the installation of the gym equipment in the west court this week. There are a total of eight baskets in each court. Outside we are starting curb and gutter on the west half of the site and will continue to finish on the east in a couple weeks. The project will be complete October 29.
